SECTION 68: The expenditure of moneys appropriated in this Act shall be by warrant requisitions directed to the Comptroller General. Upon receipt of the requisition, accompanied by invoices or other satisfactory evidence of the propriety of the payment, and itemized according to standard budget classifications, the Comptroller General shall issue his warrant on the State Treasurer to the payee designated in the requisition. *Provided, however,* that, upon approval and designation by the State Budget and Control Board, state institutions may requisition funds in favor of their own treasurer, itemized only to the extent of the purpose of the appropriation as expressed in this Act, and may deposit such funds in the name of the institution, and disburse same by check to meet the purposes of the appropriation, but strict account shall be kept of all such expenditures according to standard budget classifications.

Provided, Further, That no part of any appropriation made to State institutions of higher learning shall be paid to meet travel and/or any other expense items in connection with visits to these institutions of any person who is a member of an un-American organization branded as such by the Attorney General of the United States or the Attorney General of South Carolina.

SECTION 69: Upon the approval and designation of the State Budget and Control Board, state institutions may, at the beginning of the fiscal year, requisition from their respective appropriations, a sum of money, the amount of same to be approved by the State Budget and Control Board, to be used throughout the year as a revolving fund for the handling of payrolls and other necessary operating expenses, all payments from such revolving funds to be reimbursed to them by regular requisitions on the Comptroller General.

SECTION 70: During the fiscal year 1950-51 the State's institutions of higher learning shall maintain rates not less than those charged during the year 1949-50 for tuition, maintenance, and all other costs heretofore borne by those attending the said institutions, except the student activity fee, the amount of which may be fixed by the respective boards of trustees, and in all cases it is hereby required that such institutions shall charge a fee which will fully cover all subsistence, laundry, infirmary treatment, and such other personal expenses. *Provided, further,* That the University of South Carolina, The Citadel, Clemson College, Winthrop College, the Colored Normal, Industrial, Agricultural, and Mechanical College of South

Carolina, the South Carolina Opportunity School, and the South Carolina Area Trade Schools shall remit all revenues and income, collected at the respective institutions, to the State Treasurer according to the terms of Section 1 of this Act, but all such revenues or income so collected, except fees received as regular term tuition, matriculation, and registration, shall be carried in a special continuing account by the State Treasurer, to the credit of the respective institutions, and may be requisitioned by said institutions, in the manner prescribed in Section 73 of this Act, and expended to fulfill the purpose for which such fees or income were levied; and it is further required that no such fee or income shall be charged in an amount in excess of what is necessary to supply the service, or fulfill the purpose for which such fee or income was charged. *Provided, further,* that money derived wholly from athletic or other student contests, and any other funds derived wholly from the activities of student organizations, shall not be considered as State funds, and may be retained at the institutions. *Provided, further,* That the University of South Carolina may operate its Law School in the Summer of 1950, both summer school and summer term, as it may be advised, and retain all tuition and other fees charged the law students to aid it in such operation.

SECTION 71: The State Budget and Control Board is hereby authorized and directed to continuously survey and examine into the collection of revenue by all of the State's institutions, and in the event that it should appear to the Board that such revenue is not meeting estimates thereof, or what should reasonably be expected, the said Board is authorized to reduce appropriations at such institutions in a sufficient amount to offset such deficiencies in revenue.

SECTION 72: All departments, institutions, and agencies of the State are hereby required and directed to budget and allocate the appropriations herein made to them, so as to provide for operation on uniform standards throughout the fiscal year 1950-51, and in order to avoid a deficiency in such appropriations, and upon request of the Budget and Control Board to submit to the Board its budget or plan of operation for the year, and the said Board is authorized to restrict the rate of expenditures of such agency if it appears that an unjustifiable deficit is likely to occur. *Provided, Further,* That the bonds of State officials violating the terms of this section shall be held liable therefor, unless the State Budget and Control Board has been advised of, and officially recognizes, the necessity for such deficit.

SECTION 73: Each department, institution, or other agency of the State is authorized to accept and receive such Federal Aid or grants as are or may be made available by the Federal Government for use in carrying out the purposes and functions of the department, institution or agency, but such funds when and as received, shall be deposited in the state treasury, if not in conflict with Federal regulations, and withdrawn therefrom as needed, in the same manner as that provided for the disbursement of state funds. *Provided, That* donations or contributions from sources other than the Federal Government, for use by any state agency, shall be deposited in the state treasury, but in special accounts, and shall be withdrawn from the treasury as needed to fulfill the purposes and conditions of the said donations, or contributions, if specified, and, if not specified, as may be directed by the proper authorities of the department or institution.

SECTION 74: Except as otherwise provided in this Act, every appropriation under the classification of A-1 Salaries for a designated position shall be paid in equal monthly or semi-monthly installments to the person holding such position, but where a group appropriation is made for Personal Service, such appropriation shall be expended as may be determined by the officer in charge of such appropriation. *Provided, Further, That* the appropriated salaries for specified positions shall mean the maximum compensation for such position, and in any case where the head of any department can secure the services for a particular position or work at a lower rate than the salary specified in this Act, authority for so doing is hereby given.

Provided, Further, That no full time employee of any State department or institution shall be paid any compensation or travel from any other department of the State Government, except upon the approval of the State Budget and Control Board.

SECTION 75: That salaries paid to officers and employees of the State, including its several boards, commissions and institutions, shall be in full for all services rendered, and no perquisites of office or of employment shall be allowed in addition thereto, but such perquisites, commodities, services or other benefits shall be charged for at the prevailing local value and without the purpose or effect of increasing the compensation of said officer or employee; *Provided, However, That* this shall not apply to the Governor's Mansion, nor to guards at any of the State's penal institutions and nurses and attendants at the State Hospital, State Training School, S. C. Sanatorium, and the Confed-

erate Infirmary, when the cash compensation of such employees is less than \$1,800.00 per year. *Provided, Further,* That the Presidents of the State's institutions of higher learning may be permitted to occupy a residence on the grounds of such institutions without charge.

Provided, Further, That all salaries paid by State institutions and departments for which a lump sum appropriation is made, and from all departmental appropriations for groups of employees, shall be submitted to and approved by the State Budget and Control Board before becoming effective; and in submitting said salaries for approval of the said Board, the total salary paid to each officer and employee, included in such lump sum or group appropriations, shall be shown; and in any institution or department where one or more salaries are supplemented, the amount of such supplement shall be reported to the said Board for approval, and the source of such supplement.

SECTION 76: That the authorities of all institutions and departments for which a lump sum appropriation is made shall make an itemized report to the State Budget and Control Board of all expenditures at such intervals as may be required by said Board. *Provided, further,* That no part of such lump sum appropriations shall be used for permanent improvements unless specifically authorized herein.

SECTION 77: That except as otherwise hereinbefore provided the base pay of legislative clerks and attaches, designated in Section 3 of this Act, shall apply to a session of forty legislative days, and that each clerk and attache shall receive additional compensation for such service at the same rate for each legislative day in excess thereof, the same to be paid from the approved accounts of the respective houses. *Provided, however,* That laborers and porters shall be paid for six days of each week of the entire session. *Provided, further,* That the salaries appropriated under Section 3, Items 5 and 6, shall apply to a period of six months between sessions of the General Assembly, and each clerk and attache provided for therein shall be paid at the same rate from approved accounts of the respective houses for any period in excess thereof. *Provided, further,* That no salaries shall be paid under these items during any period when the General Assembly is in regular or special session.

SECTION 78: That all employees of the State of South Carolina or any agency thereof while traveling on the business of the State, shall be allowed the sum of \$7.50 per day as subsistence expenses. No expense shall be allowed an employee either at his place of resi-

dence or at the official headquarters of the agency by which he is employed, except for constitutional officers, which shall not exceed \$750.00 in any one year, and shall be itemized as required by law, and that when an employee is assigned to work a particular territory or district, and such territory or district and his official headquarters are in different localities, or sections of the State, expenses may be allowed for necessary travel to his official headquarters, or to other places outside of his territory or district. *Provided*, that members of State Boards, Commissions, or Committees, whose duties are not full time, and who are paid on a per diem basis, shall be allowed subsistence expenses while away from their places of residence on official business of the State. *Provided, further*, that employees of the State traveling outside of the State on official business, shall be allowed the sum of \$10.00 per day as subsistence expenses, except that the Governor shall be allowed actual expenses. *Provided further*, that each Circuit Judge, while holding Court outside of the circuit in which he resides, and each Justice of the Supreme Court, while attending the sessions of said Court at Columbia, shall be allowed the sum of seven dollars and fifty cents (\$7.50) per day as subsistence expenses, and shall further receive such mileage allowance for travel as is provided for other employees of the State. One member of the Supreme Court shall be entitled to subsistence and travel allowances on the same basis while attending the National Convention of Chief Justices.

That when an employee of the State shall use his or her personal automobile in traveling on necessary official business, a charge of 5 cents per mile will be allowed for the use of such automobile, and the employee shall bear the expense of supplies and upkeep thereof. When such travel is by a state-owned automobile, the State shall bear the expense of supplies and upkeep thereof, but no mileage will be allowed. *Provided*, that in traveling on the business of the State, employees are required to use the most economical mode of transportation, due consideration being given to urgency, schedules, and like factors.

SECTION 79: That the Legislative members of State boards and commissions shall serve in their respective capacities as members of said boards and commissions until their successors shall have been elected or appointed, and qualified.

SECTION 80: That the per diem allowance of all boards, commissions and committees shall be at the rate of Ten (\$10.00) Dollars

per day. *Provided*, that no full-time officer or employee of the State shall draw any per diem allowance for service on such boards, commissions or committees.

SECTION 81: That if necessary the board of trustees of State institutions of higher learning shall limit the admission of students upon the basis of scholarship standing, or upon any other basis determined upon by the respective boards. *Provided, Further*, That no State scholarships shall be granted by State institutions of higher learning, namely: The University of South Carolina, The Citadel, Clemson College, and Winthrop College.

SECTION 82: *Whereas*, the federal government is calling on the state institutions of higher learning to receive and offer educational training to World War II veterans; and

Whereas, said institutions of higher learning are required to give special treatment to the pre-registration of such veterans, evaluations of service school records, special scholastic progress reports, guidance and counselling, daily reports of absences, class attendance, the maintenance of a list of housing facilities available and otherwise lending assistance in locating such housing, and other details beyond those required of civilian students.

Now, Therefore, it is directed that in the various institutions of higher learning no student shall be granted free tuition; *Provided*, That tuition from and after January 1, 1946, shall be fixed by the respective governing boards of said institutions at Eighty (\$80.00) Dollars each for the residents of the State of South Carolina, and Two Hundred and Fifty (\$250.00) Dollars for non-residents of the State of South Carolina; *Provided, Further*, That the tuition fees as set out above shall not be applicable to students in the various institutions of higher learning who are veterans of World War II enrolled under, and receiving the benefits of, the provisions of Public Law No. 346, of the United States, known as the "G. I. Bill of Rights", or Public Law No. 16, concerning vocational rehabilitation; and in all such cases the fees to be charged to the Administrator of Veterans' Affairs for the education of such veterans shall be fixed by the governing boards of such institutions, so as to provide for the payment by the Administrator, with respect to any such person, of such fair and reasonable compensation as will not exceed Five Hundred (\$500.00) Dollars for an ordinary school year; *Provided, Further*, That the tuition fees to be charged by governing boards at the Medical College, and in the Law School of the University of

South Carolina, and by the State Colored College shall not be subject to the above limitations.

Provided, Further, That if any student wishes to surrender the benefits of the provisions of Public Law No. 346, of the United States, known as the "G. I. Bill of Rights", he may do so, and may then be charged only the fee of Eighty (\$80.00) Dollars as a resident, or Two Hundred and Fifty (\$250.00) Dollars as a non-resident.

Provided, Further, the said charges for tuition for the scholastic year shall be deemed to be for the customary or usual term of nine months or less, and shall not prevent the various institutions of higher learning from charging an additional appropriate amount for tuition for the months in excess of the customary or usual term during which such institution may conduct classes for which regular credits are given; *Provided, Further,* That members of the armed forces and federal employees stationed in South Carolina shall have the privilege of sending their children to the State educational institutions for the fees charged to citizens of this State; and where such persons are ordered away from the State, the children may continue to have this privilege while they attend the institutions.

Provided, further, That foreign citizens, friendly to the United States, who are beneficiaries of scholarships to any of the State's institutions of higher learning, which scholarships are provided for by the student body of such institution, or donation from private citizens of South Carolina, shall be allowed to pay tuition at the same rates as residents of the State.

SECTION 83: The Board of Trustees of the University of South Carolina, the Citadel, Winthrop College, and Clemson College, are hereby authorized to abate the tuition fee charged at these institutions to the extent of Fifty (\$50.00) Dollars to the winner of the American Legion High School Oratorical Contest and to the Governor of Boy's State; the said abatements to be for four (4) years in each instance, and to be granted when the American Legion, Department of South Carolina, will have contributed a like amount per year. The abatement of tuition herein provided is for the purpose of furnishing a scholarship of One Hundred (\$100.00) Dollars per year to the winners of the above contests, the State of South Carolina and the American Legion, Department of South Carolina, cooperating on an equal basis in providing these scholarships.

SECTION 84: The Governor, the State Treasurer, the Comptroller General, the Chairman of the Senate Finance Committee and the Chairman of the Ways and Means Committee of the House of Representatives shall constitute the State Budget and Control Board. All of the powers and duties devolved upon the Governor, the Chairman of the Senate Finance Committee, and the Chairman of the Ways and Means Committee of the House, in Section 3213 to Section 3222, inclusive, Code of Laws of 1942, are hereby devolved upon the State Budget and Control Board. SECTION 3: All appropriations herein made are subject to the right and authority of the Clarendon County Delegation to change, alter, or deduct therefrom at any time without notice, when in its judgment such change, alteration or deduction is necessary for the best interest of the county and to conform with the revenue expected during the life of this act. This act is intended and is construed to make appropriations for the operation and activities of Clarendon County for the period beginning July 1, 1950 and ending June 30, 1951.

Balances from appropriations in former years, unexpended on August 1, 1951, shall terminate and end as of that date. The supervisor shall

SECTION 5: The county treasurer shall before the payment of any interest or principal on drainage bonds, require the production of said bonds and shall copy therefrom the date of issue, the amount, the maturity date, and write thereon the payment made on such bond. The treasurer shall set up an account showing the above information and keep it posted currently for the inspection of the public.

SECTION 6: Any note or obligation given for an amount exceeding the total authorization herein shall be null and void unless authorized in writing by a majority of the Clarendon County Delegation in the General Assembly. SECTION 17: Any of said persons or agencies drawing travel allowances as herein provided shall show by affidavit that such gasoline and oil was actually used.

quirements of said schools as prepared by the board of trustees provided that the levy imposed by this section shall not exceed fifty (50) mills.

SECTION 20: All acts or parts of acts inconsistent with this act are hereby repealed to the extent of such inconsistency.

SECTION 21: This act shall take effect upon its approval by the Governor.

SECTION 9: Bonds—deposit, expenditure and application of proceeds.—The proceeds from the sale of all bonds issued pursuant to this Act shall be deposited with the Treasurer of Georgetown County in a separate and distinct fund, and expended upon the warrants of the commission for the purposes for which said bonds are issued. No purchaser of any bonds issued pursuant to this Act shall be in any way obligated, responsible or liable for the proper application of the proceeds thereof, nor shall the validity of any bond be affected by the application of the proceeds thereof.

SECTION 10: Bonds—execution.—All bonds issued pursuant to this Act shall be signed in the name of the district by the chairman of its commission, under its corporate seal, and countersigned by the Treasurer of Georgetown County, but the facsimile signatures of said chairman and said Treasurer lithographed or engraved upon the coupons attached to said bonds shall be a sufficient signing of the coupons.

The auditor and treasurer of Georgetown County are hereby authorized and directed to levy and collect said tax, in the same manner as county taxes are levied and collected, and the treasurer shall apply the same solely to pay the principal and interest on said bonds as the same mature. If the net revenues derived from the operation of the waterworks system, as said net revenues have been previously defined, are additionally pledged for the payment of such bonds and their interest, then the annual ad valorem tax herein directed to be

levied shall be reduced in each year by the net revenues, so derived from the operation of any revenue producing facility, and actually in the hands of the treasurer at the time the tax for such year is required to be levied, and said tax may be entirely suspended in any year in case such moneys on hand and applicable as aforesaid are sufficient to pay the principal and interest then due or falling due in said year.

SECTION 14: Not issue bonds unless election thereon favorable.

—No general obligation bonds shall be issued pursuant to the authorizations of this Act, unless the election required by this section shall have been held and shall have resulted favorably to the issuance of bonds. To the end that the qualified electors of said district may express themselves upon the question of the issuance of general obligation bonds as authorized by this Act, the commission shall be empowered to order an election to be held in said district. No. 1335

AN ACT To Determine By Ballot The Wishes Of The Voters Of Orangeburg County On Questions Involving Consolidation Of School Districts And The Operation Of The Schools Of The County.

Be it enacted by the General Assembly of the State of South Carolina:

SECTION 1: Vote on school district consolidation, Orangeburg County—time—proposals.—That for the purpose of determining whether or not the voters of Orangeburg County favor a consolidation of school districts; and, if so the plan of their choice, the following propositions shall be submitted to the qualified electors of Orangeburg County at a special election to be held in said county on July 11, 1950. The County Board of Education shall prepare and provide at the several voting places in the county receptacles in which the ballots shall be cast and ballots on which there shall be plainly printed or written the following:

“Do you favor any school district consolidation?

YES

NO

If you do, scratch out the word ‘NO’ above; if you do not scratch out the word ‘YES’ above.

It matters not whether you vote ‘YES’ or ‘NO’, on above question the voter is requested to express his choice of the plans hereinafter proposed.

PLAN NO. 1

County Unit System ☐

PLAN NO. 2

Eight School District Plan ☐

PLAN NO. 3

Five School District Plan ☐

PLAN NO. 4

Some other Combination of Districts ☐

The voter will make a check or cross mark after the plan of his choice."

No action will be taken as a result of the vote herein provided for, but the sole purpose is to ascertain the wishes of the voters so that those charged with the enactment of school law and the administration of the same will know the wishes of the people on the subject.

ARTICLE I

PLAN NO. 1

County Unit System Plan

Under Plan No. 1 all of the districts in the county would be combined into a county wide district and all of the schools would be operated through a centralized authority and would do away with the control of the schools by local boards of trustees. There would be a county wide levy and the centralized authority would have power to give special aid to the weaker districts in the county. The report of the Orangeburg County School District Reorganization Committee to the Orangeburg County Board of Education under date of February 17, 1950, deals more specifically with the provisions which are ordinarily of force under a county unit system and the recitals in this section do not attempt to set forth in detail the provisions ordinarily effective under county unit plan.

ARTICLE II

PLAN NO. 2

Eight School District Plan

This plan proposes that the county be divided into eight school districts.

District No. 1 would be composed of the area in the western section of the county including the towns of Neeses and Springfield.

District No. 2 would be composed of the upper section of Orangeburg County including the towns of Livingston, North and Woodford.

District No. 3 would be composed of the area east and south of Districts No. 1 and 2 and comprises the town of Norway and extends

on the east to a point near the town of Bolen, and south to the county line.

District No. 4 adjoins District No. 3 on its west side and extends from the south side of the Edisto River to the North Edisto River and includes Bolen, Cordova, Cope and comes to within about 3 miles of Orangeburg where its line follows the North Edisto River southward until it forms the Edisto River by uniting with the South Edisto River.

District No. 5 includes Rowesville on the south, the City of Orangeburg, the town of Wolfton, the area north west of the city, the town of Jamison and the area east of Orangeburg for a distance of 8 to 10 miles and extends to the Calhoun County line on the north.

District No. 6 begins south of Rowesville, extends to the Edisto River on the west and south includes Branchville and the area south and south east of Branchville and extends in an eastern direction to a point about midway between Branchville and Bowman and then the eastern boundary line runs almost parallel with the Southern Railway until it intersects with the southern boundary line of District No. 5.

District No. 7 adjoins District No. 6 and District No. 5 including Bowman and the territory south of it and extends to the county line on the northeast and is separated from District No. 8 by Four Hole Swamp.

District No. 8 comprises all of the county east of Four Hole swamp and includes Elloree, Santee, Parler, Eutawville, Felderville, Holly Hill and other communities in that area.

Under this plan, to a large measure, local controlled schools would continue in local communities and local boards of trustees would determine the advisability of continuing or abolishing and consolidating small community schools. It is also stated with respect to this plan that this section does not even attempt to set out with particularity the provisions that would be of force under this plan.

ARTICLE III

PLAN NO. 3

Five School District Plan

The principal difference between Plan No. 2, The Eight District Plan and Plan No. 3, the Five District Plan, is that in the former the eight districts are formed as set forth in a general way in Section 1 of Article II hereof and the Five District Plan would be accomplished by combining Districts No. 1 and 2, as set forth above, Dis-

tricts No. 3 and 4, as set forth above and Districts No. 5 and 7, as above set forth. 1 and 2 would be designated as District No. 1; 3 and 4 as District No. 2; 5 as District No. 3; 6 and 7 as District No. 4 and 8 as District No. 5.

Under this plan, to a large measure, local controlled schools would continue in local communities and local boards of trustees would determine the advisability of continuing or abolishing and consolidating small community schools.

The public is advised that there is available to it a report including a discussion of the several plans made under date February 17, 1950 to the Orangeburg County Board of Education by the Orangeburg County School Reorganization Committee composed of the following gentlemen; Mr. G. B. Patrick, Chairman; Mr. Andrew Berry, Secretary; Mr. L. M. Bennett, Mr. F. D. Evans, Mr. Thomas T. Traywick, Mr. O. S. McKnight, Mr. James Walsh, Mr. E. H. Poole and Mr. H. L. Bowling. This report is on file in the office of the County Superintendent of Education.

ARTICLE IV

PLAN NO. 4

Some other Combination of Districts

Plan No. 4 gives the voter the privilege of expressing himself in favor of consolidation, but against the plans proposed. It may be that with changes in the combination of Districts, he would favor Plan No. 2 or Plan No. 3. A vote for Plan No. 4 is a vote for consolidation; but disapproval of proposed combination of Districts.

SECTION 2: Payment of election expenses.—The expenses incident to the election shall be paid from the Contingent Fund of the county on claims therefor filed by the County Board of Education and approved by the Orangeburg County Legislative Delegation.

SECTION 3: Repeal.—All acts or parts of acts inconsistent herewith are hereby repealed.

These rules and regulations amend and supplement rules and regulations adopted October 2, 1924 and promulgated October 31, 1924; which rules and regulations are repealed by said Resolutions and the following adopted in their stead:

Section 1. Any person, firm, corporation, association, county, municipality, or other political subdivision, and any state or federal government, agency, department, or authority of the same who shall propose or desire to construct an impoundment of 1/10 acre or more in area for any purpose whatever or who shall propose or desire to raise the elevation of a previously existing pond or other body of water, shall, prior to the initiation of any construction activities, make application to and obtain from the State Board of Health a construction permit for the impounding of such water.

Section 2. Such application for a construction permit shall be made in writing in the name of the person, firm, corporation, association, county, municipality, or other political subdivision, and any state or federal government, agency, department, or authority of the same making application, and shall be accompanied by a description of the proposed project, its purpose, and its exact location, an accurate plat of the area to be affected showing particularly the maximum and minimum water elevations, and a copy of detailed specifications for clearing the proposed reservoir.

Section 3. A construction permit for the inauguration of initial construction shall be issued by the State Board of Health subject to the following rules and regulations, or modifications thereof approved by the Executive Committee of the State Board of Health.

3a. In the area to be occupied by the reservoir, its branches, bights, and indentations, all brush, trees, and undergrowth below the minimum low-water elevation shall be cut off not more than 18" above the normal ground elevation and shall be removed or burned or otherwise disposed of in a manner satisfactory to the Executive Committee of the State Board of Health, Provided, that, on the approval of the Executive Committee of the State Board of Health grass, vegetation, brush, trees, stumps, and similar materials, which will be permanently and completely submerged at time of minimum low water may be left in their original positions.

3b. In the area to be occupied by the reservoir, its branches, bights, and indentations, all brush, trees, logs, undergrowth, stumps, and other objects below the minimum low water elevation, which if not removed would pierce the water surface at minimum low water elevation or float on the surface of the impounded water soon after the impounding of the water and all of the above material that is lying on the ground or remaining in the original or new positions which might cause collections of floatage and thus constitute conditions favorable to the protection of larvae of mosquitoes shall be removed or burned or otherwise disposed of in a manner satisfactory to the Executive Committee of the State Board of Health prior to the impounding of water.

3c. In the area to be occupied by the reservoir, its branches, bights and indentations, all brush, trees, and undergrowth between the minimum and maximum operating water elevations shall be cut off not more than 6" above the normal ground elevation and shall be removed or completely burned prior to the impounding of water to prevent the collection and anchorage of any floatage, rafts, and similar materials.

3d. All depressions which will be filled with water from the reservoir, its branches, bights, or indentations at time of maximum water elevation, in which water will be retained at lower stages of the water level, thus forming separate pools, shall be connected with the normal body of the reservoir or any of its branches, bights, or indentations by a ditch or culvert which will permit complete drainage, or shall be controlled by the regular periodic use of approved larvicides as permitted and directed by the Executive Committee of the State Board of Health.

3e. All laborers employed in the construction of the dam and the impounding of the water and appurtenant work, and housed in camps, bar-

racks, or other communal houses, shall be protected from mosquitoes in a manner satisfactory to the Executive Committee of the State Board of Health.

4. (a) The total payroll (taxable wages) of the transferred portion of the business for the three-year period or such lesser period as the severable portion may have been in existence shall be divided by the total payroll of the predecessor for such period to establish a transfer percentage.
- (b) The total payroll (taxable wages) for the three-year period ending on the June 30 immediately preceding and for the period beginning with such June 30 and ending with the date of transfer which relates to the distinct and severable portion of the business transferred shall be transferred from the predecessor employer to the successor employer.
- (c) The amount obtained by multiplying the following items by the "transfer percentage" shall be transferred from the predecessor to the successor:
- (1) The payroll (taxable wages) for those years in which the severable portion transferred was in existence prior to the period specified in paragraph c 4 (b).

- (3) The contributions credited to and the benefits charged to the predecessor's experience rating reserve account subsequent to June 30 and prior to the date of the transfer of the severable portion of the business.
5. In the event that a separate subsidiary experience rating account has been maintained by the Commission with respect to the distinct and severable portion of the business transferred for the entire period of the operation of such portion, Section C 3 and C 4, above, will not apply. The total contributions paid, benefits charged, reserve balance, and payroll (taxable wages) appearing on such subsidiary account, together with those items entered on that account from the preceding June 30 up to the date of the partial transfer of business will be transferred from the experience rating reserve account of the transferring employer to the experience rating reserve account of the acquiring employer.
6. In the event that the transferring employer shall not have been a subject employer under the South Carolina Unemployment Compensation Law for at least three (3) years prior to the June 30 preceding the date of the partial acquisition, the entire period of the liability of the transferring employer, or such lesser period as the distinct and severable portion may have been in operation, will be considered for the purpose of ascertaining the proportion of the reserve account to be transferred in accord with Sections C 3, C 4, and C 5, hereof. Sections C 3 and C 4 will be applicable *unless* a separate subsidiary experience rating account has been maintained by the Commission with respect to the distinct and severable portion of the business transferred for the entire period of the operation of such severable portion, in which case Section C 5 will apply.

(Filed in Secretary of State's office this the 5th day of June, 1950.)

INTRODUCTORY TO STANDARDS

Part One of these Regulations applies to all hospitals and homes covered by the Act of the General Assembly of the State of South Carolina requiring the licensing, inspection, and regulation of hospitals and related institutions.

Part Two of these Regulations applies to the hospitals rendering the type or types of services covered therein.

Part Three of these Regulations contains additional regulations covering institutions rendering specialized care.

PART ONE: GENERAL STANDARDS FOR ALL HOSPITALS AND SERVICES

I. PHYSICAL PLANT AND EQUIPMENT

A. Construction

Every institution must be so planned, organized, equipped, manned and administered as to furnish adequate care to each class of persons which it receives for care and treatment.

The physical plant must be adapted to the public service to be performed.

All hospitals shall comply with all local and state laws, standards, codes, or ordinances applicable or pertinent to the construction and/or operation of a hospital. Before beginning construction plans must be approved by the South Carolina State Board of Health

The State Board of Health reserves the right to *make exceptions* to these standards as applied to existing institutions where it is determined that the health and welfare of the community requires the services of the *existing institution*. However, every effort must be made by the owners of and/or operators of all sub-standard institutions to make necessary changes and alterations in order that they may meet the minimum standards.

1. SUBMISSION OF PLANS

a. *Temporary:*

In order to avoid unnecessary delay in securing approval for a license *or to avoid the possibility of not obtaining a license*, when construction is contemplated, either for new buildings, *additions to existing buildings*, or material alterations to existing buildings, or when it is contemplated converting a building of any kind into a hospital, the plans and outline specifications shall be submitted in duplicate to the State Board of Health for approval. The preliminary plans shall be drawn to scale and show the following:

(1) *Plot Plan*

Size and shape of entire site with over-all dimensions

Point of compass and data on prevailing and storm winds where significant

Topographical conditions and soil investigation where necessary (engineer's survey is required)

Location of proposed building on site, with existing structures and any proposed future additions.

Service roads, walks, drives, and parking areas

Buildings on adjacent properties within 40 feet of property lines (indicate type of construction and nature of use)

Existing growth (trees) and natural barriers (rocks, cliffs, streams, etc.)

Adjacent streets, highways, sidewalks, railroads, etc. (Designate major highways, county roads, or residential streets)

Show size, characteristics, and location of all existing public utilities.

(2) *Floor Plans*

Wall thickness, materials of construction, and over-all dimensions of building

Location, sizes and purposes of all rooms.

Location of all doors, windows, door swings, etc.

Location of built-in equipment and casework

Lay-outs showing plumbing, heating, ventilation, and electrical work

Location of stairs, elevators, dumb waiters, vertical shafts, and chimneys.

Tentative furniture and equipment layouts, including nurses' stations

Room finish schedule

(3) *Elevations* (same scale as plans, of at least two sides)

Finished floor and ceiling levels

Finished outside grades

Windows, doors, steps, areaways, retaining walls, etc.

Materials

(4) *Sections* (Same scale, to explain condition not made clear in other drawings)

(5) *Miscellaneous*

Title and dates of drawings including revisions

The governing authority of a hospital shall at the request of the State Board of Health submit evidence that all construction has or will take place in accordance with the approved plans and revisions thereof.

b. *Final Plans:*

After the preliminary plans and drawings have been submitted and tentatively approved by the State Board of Health, one copy will be returned to the applicant for corrections. The applicant shall then submit, in duplicate, prints of working drawings and specifications, with the required revisions, to the State Board of Health for approval before the contract is let. One set of the final approved plans shall then be returned to the applicant.

Approval in writing is required from the State Board of Health on all change orders.

2. *LOCATION*

In locating an institution the local zoning ordinance must be observed.

The institution shall be located on a road or highway kept passable at all times.

All hospitals constructed after July 1, 1949 shall be so located that they are free from undue noises, smoke, dust or foul odors, from railroads, freight yards, main traffic arteries, schools, children's playgrounds, airports, or industrial plants.

3. FLOORS, WALLS AND CEILINGS

All walls, floors and ceilings shall be constructed of materials that will permit frequent cleansing or washing, or disinfection necessary for the safe care of patients, and shall be free of cracks or open spaces so as to prevent the entrance and harborage of rodents, insects, etc.

4. FIRE PROTECTION

For the purpose of these regulations, a room in which any of the hydrocarbon anesthetic gases or any of the other compounds are stored or used, is to be considered a hazardous area. The hazardous area may be considered as extending for a horizontal distance of ten feet and a height of seven feet above the floor outside of any door opening into such a room.

Every effort shall be made to eliminate all fire hazards in connection with the building by complying with the requirements set forth in the following section relating to construction, wiring and heating.

All hospitals of more than 25 beds and more than one story in height shall be constructed with a reasonable degree of fire safety. The fire resistive rating shall comply with the Building Code recommended by the National Board of Fire Underwriters: For load bearing walls and partitions, 3 hours; for non-load bearing walls and partitions, 1 hour; for floors and roof, 2 hours; and for closures to stairs, elevators, and other vertical openings, 2 hours.

a. Hazardous Elements of Construction

Chimneys, flues, and stovepipes shall be constructed and installed in accordance with the National Building Code as recommended by the National Board of Fire Underwriters.

Chimneys, flues, and stovepipes must be thoroughly cleaned once a year.

When steam, hot water or stovepipes pass through walls or ceilings or are placed nearer than two inches to woodwork or any other combustible material, pipes must be protected by a suitable fire resistive shield. All joints must be riveted and properly supported.

Dampers shall be installed on all ventilating systems. Dampers shall be constructed with fusible links.

Laundry chutes and dumb-waiter shafts shall be lined with fireproof material and have close-fitting doors also lined with fireproof material. Shafts shall not terminate in an attic.

Elevator shafts shall be enclosed with fireproof material.

Incinerators must be constructed and installed in accordance with the manufacturers directions.

Hospitals maintaining and operating laundries shall provide ventilation for the elimination of steam and odors from patient areas.

b. Fire Fighting Apparatus

For each 2500 square feet of area or fractional part thereof, there shall be provided an efficient approved fire extinguisher or wet stand-

pipes with attached hose. Extinguishers shall be hung in a public hallway at a height convenient for ready access and use.

Each operating room and X-ray room area should be provided with a suitable hand-type extinguisher of at least 1½ quart size.

Where inside standpipes are installed they must have a sufficient length of hose attached thereto on each and every floor to throw a stream of water to every part of the floor. Standpipe hose shall be unlined.

Outside standpipe thread must conform to thread of hose connections for the local fire department. Hospitals located outside city or town limits must make arrangements with the nearest fire department to respond to calls.

There shall be at least one piece of first aid fire fighting equipment on every floor of every hospital building. Extinguishers shall be so located that a person will not have to travel more than 50 feet from any point to reach the nearest extinguisher.

First aid fire fighting appliances shall be of the type which would control ordinary combustible fires. When special hazards exist, additional first aid fire fighting equipment of the type which will control these fires shall be required.

When the first aid fire fighting equipment is of the type requiring re-charge periodically, such extinguishers shall be re-charged by a competent person at least once each year, or immediately after use, and time and date of re-charge shall be registered on the tag attached to the extinguisher.

All hose and connections shall be kept serviceable and have periodic inspections.

All employees shall be instructed in the location and use of the first aid fire fighting equipment.

Signs should be posted in conspicuous places to give information as to the location and operation of fire alarm boxes, extinguishers, fire hose and fire exits.

c. Exits From Building

There shall be more than one exit leading to the outside of the building from each floor. Exits are to be located as remotely from each other as practical and shall be so arranged that there are no pockets or deadends of appreciable size in which occupants may be trapped.

Any building housing patients or employees two stories or more above the ground must have enclosed emergency exits of fireproof construction from such floors. A basement shall be considered a floor if it accommodates treatment for patients or facilities for employees.

All outside stairs used as fire exits must reach the ground and shall be provided with handrails. Extension to the roof of the building can be of steel ladder type, properly anchored.

Interior exit stairways shall be a minimum of 44 inches in width, be equipped with handrails and so located as not to present a greater

than normal hazard to persons using such stairways. Pitch, risers and treads of exit stairs shall conform to the requirements of the Building Exits Code of the National Fire Protection Association and amendments thereto.

Every room shall be connected directly to a corridor or an outside exit and shall have doors and corridors of sufficient width to allow the free removal of patients.

All doors or exits used as fire exits shall swing in the direction of exit travel when making egress from the building. All required outside exit doors shall be equipped with latches which may be opened readily from the inside without the use of keys or any special knowledge or effort.

Doors from patients' rooms and wards shall not be equipped with other than a lock which may be opened from either side without the use of a key or any special knowledge or effort, except in nursing, chronic, convalescent, rest, and alcoholic homes for which restrictions specifically stated in those sections pertaining to such hospitals shall be followed.

Halls, corridors and all other means of egress from the building shall be maintained clear and free of fixed obstructions.

Each hospital building shall have exits marked with approved illuminated signs bearing the word "EXIT" in letters at least four inches high.

All hallways, stairs and other means of egress shall be adequately lighted at all times.

In each hospital building, exterior ramps with a slope of not more than one in eight shall be installed from the first floor to the grade to serve all portions of the building where bedridden patients are or may be placed. The width of all ramps shall be not less than four feet clear of all obstructions except handrails.

Where greater than normal fire or other hazard exists, additional exit facilities, ramps, fire separations, enclosures, etc., may be required to the extent that reasonable fire safety is provided.

d. *Fire Alarm*

There shall be provision for notifying the local fire department immediately in case of fire by direct alarm.

A system of warning occupants and employees of fire or other emergency shall be provided in all buildings.

e. *Existing Facilities*

Existing buildings not more than one story in height, or with 25 beds or less, may have their use continued for hospital purposes by complying with the above provisions of these regulations. Such hospitals are exempted from the requirements of the remainder of this sub-section "c" if construction or alteration was completed before July 1, 1949.

Multi-storied buildings constructed with a reasonable degree of fire safety, may have their use continued for hospital purposes by complying with the provisions of these regulations, and further providing that:

All corridors are lined on the corridor side with metal lath and plaster or its equivalent; or be equipped with a standard automatic sprinkler system;

Vertical openings, such as stairways, elevator shafts, etc., are enclosed at each floor level with a one hour fire resistive enclosure and doors leading to vertical openings are equipped with self-closing devices.

Attic areas shall be divided into horizontal areas of not more than 2500 square feet each with tight one inch partitions of approved fire-resistive material. All openings through these partitions shall be protected by self-closing doors of the same thickness as the partition. The doors shall be kept closed at all times.

Conversion of an existing house or houses into a hospital is not advisable and where so done adequate fire safety must be provided by fire-resistive construction or by installation of a standard automatic sprinkler system.

f. Furnace Rooms and Heating Devices

In new one story buildings or in existing one story buildings where high pressure boilers are used, the construction shall be of two hours fire resistive material. All doorways leading to and from the heating plant room shall be of fireproof material.

In multi-storied hospitals, every boiler room or room containing a heating plant, furnace, etc., shall be separated from the remainder of the building by a three hour fire resistive separation. Doors shall be of three hour fire resistive construction and be equipped with a self-closing device which would normally keep them in a closed position.

Where more than one boiler is installed, they shall be spaced three feet apart with three or more feet between boilers and walls. Clearance in front shall be equal to the length of the boilers or more and a minimum clearance of five feet above the boilers.

A fresh air inlet vent shall be constructed leading from the boiler or furnace room directly to the outside of the building. This vent shall be protected at the boiler or furnace room end with a metal drop and 160 degrees fusible link control.

No unprotected openings of any kind shall be permitted between the boiler or furnace room enclosure with any other part of the building.

For existing hospitals of 25 beds or less the above requirements of this sub-section "f" may be waived if no undue hazards exist and where adequate fire fighting equipment and methods of evacuating patients exist, and where compliance places an undue financial burden on the hospital.

Gas fired hot plates, ranges, heaters, and other appliances may be used where no hazard is created but shall be serviced with rigid pipe connections and properly vented to the outside.

Oil burning space heaters of the cabinet type shall be of a type approved by a nationally recognized laboratory as being safe for such use in connection with these occupancies. Such heaters shall not have a heat generating capacity in excess of 50,000 British Thermal Units each unless installed in accordance with accepted safety standards.

Combustible floors under all heaters shall be protected by not less than one-half inch asbestos covered with metal or a similar protection. No heaters shall be located less than 18 inches from combustible walls or ceilings unless properly insulated and protected.

Fuel oil storage tank constructed as an integral part of the heater shall not exceed six gallons in capacity.

Fuel oil storage tanks not integral with the heater shall be properly vented.

Hoods, vents, ducts, etc., from heating equipment, cook stoves, water heaters, sterilizing machines, ranges, etc., shall be installed in accordance with best practices to eliminate hazards and provide proper ventilation. Hoods and vents installed over cook stoves and ranges shall be maintained clean and free of grease accumulations at all times.

g. Electrical Equipment

All electrical wiring and installations shall be installed in accordance with provisions of the National Electrical Code.

Extension cords shall not be fastened to walls as permanent electrical wiring, and when used must not constitute a fire hazard. Electric lamps and other appliances in closets or other confined locations shall be protected by wire guards if near woodwork, paper, clothing or other combustible material.

h. Special Hazards

Storage and handling of other than approved safety film shall be in accordance with the National Board of Fire Underwriters' regulations.

When approved acetate base safety film is used, metal safety cabinets and film storage vaults are not required except when required by local ordinance.

Combustible anesthetic gases and oxygen equipment used in hospitals shall be installed and maintained in accordance with the following: Storage rooms for anesthetic gases and oxygen shall not be heated; where stored in same room, oxygen and nitrous oxide shall be stored on the opposite side of room from ether and other combustible gases; gas machines shall be inspected at regular intervals and maintained in a satisfactory condition; special precautions shall be taken to assure absolute cleanliness in handling of all gases under pressure, as presence of fats and greases about them increase the explosion hazard.

All due precautions must be taken in handling anesthetics, gasoline, oil, paints and varnishes. Cloths and waste used for polishing floors and furniture shall be disposed of so as not to create a fire hazard.

All outside areas, grounds, and/or adjacent buildings shall be kept free of rubbish, grass, and weeds that may serve as a fire hazard.

i. *Surgeries, Delivery Rooms, Minor Surgeries, and Similar Places Where Combustible Anesthetics Are Used.*

In addition to all of the other requirements pertaining to fire safety as set forth in those regulations, surgeries, delivery rooms, minor surgeries and similar places shall comply with the following general requirements:

All electrical lighting fixtures and convenience outlets located below a level five feet from the surgery floor shall be of the vapor proof type as approved by the Underwriters' Laboratory for use in hazardous locations. This requirement may be waived for hospitals of 25 beds or less in operation July 1, 1949.

Open gas flames, electrical heating elements, portable electric heaters and similar devices not of the type approved for use in hazardous locations shall not be used in rooms subjected to combustible anesthetics or in hazardous locations.

Heating in surgeries and similar rooms shall be by steam radiator, hot water or some other device which would not contribute to the ignition of combustible anesthetics.

Special precaution shall be taken at all times toward the elimination of static electricity which might provide the ignition of combustible anesthetics within this type of occupancy.

Every effort shall be made to prevent the use of open lights of any description, radio knives, high frequency electrical apparatus, live cauteries or any other source of ignition in the vicinity of combustible anesthetics.

Smoking is prohibited in surgeries or similar hazardous area, or within ten feet of the doorway of any room in which combustible anesthetics are being used.

j. *Storage*

The storage of inflammable liquids including gasoline, fly sprays, paints, oils, etc., is prohibited in hospital buildings unless stored in approved metal cabinets well ventilated at top and bottom, or in fire resistive rooms.

When basements, storerooms, or attics are used for the storage of combustible materials such as mattresses, bedding, furniture, etc., they shall be kept free of all trash, papers, old cloths, boxes, and all highly combustible materials. Such storage space shall be kept clean and orderly at all times. Mattresses should be stored in a small pile with sufficient space for access to all sides.

Rubbish disposal shall be in accordance with local requirements.

Provision should be made for individualized care of each infant.

Suitable quarters must be provided where mothers may nurse their infants.

Narcotics, hypnotic drugs, sedative drugs or other restricted drugs, for internal or external human use, may not be owned, stored, or possessed except under the immediate supervision of a Licensed Physician or Licensed Registered Pharmacist.

Part 1 of these regulations shall be complied with insofar as applicable.

IV MATERNITY HOMES

A. Organization

To secure a maternity home license, the institution must have only maternity patients for care. No other type of patient shall be cared for in a maternity home at any time. Boarders and lodgers shall not be accommodated and no children shall be boarded.

Patients may be accepted only upon approval of a duly qualified physician except under emergency circumstances which make it impossible to obtain prior approval for the admission of the patient.

The standards which have been adopted for the hospitals receiving maternity patients have been modified for the maternity home in order to meet the conditions which arise from the limited space and facilities, and the restricted service of such homes; however, the maternity home must conform to all of Part One and to Part Two, II, Maternity Service of these Regulations, except where specifically stated to the contrary.

Nursing care shall be under the supervision of a registered nurse or a licensed practical nurse.

The maternity home shall be under the supervision of a licensed physician in the community who will be responsible for the delivery set-up and maintain supervision over the care of the mother and baby in the home.

B. Facilities

No patient shall be delivered in a room occupied by another patient except in emergency.

In maternity homes, if the patient's room is used for delivery, it must be of sufficient size. The room used for delivery shall be set up in accordance with the physician's instructions, and with all supplies and equipment needed. There must be adequate lighting of the delivery field. Sterile supplies may be furnished by the physician, but a complete set for at least one delivery shall be on hand at all times to meet emergencies.

Narcotics, hypnotic drugs, sedative drugs or other restricted drugs, for internal or external human use, may not be owned, stored, or possessed

except under the immediate supervision of a Licensed Physician or Licensed Registered Pharmacist.

General Equipment:

Individual bath blankets shall be provided for each patient.

There shall be a separate crib or basket for each infant.

Equipment shall be provided for bathing of infants by safe and sanitary methods.

Equipment and supplies for emergencies shall be readily available at all times.

A work table shall be provided with supplies for dressing, bathing and treating of infants.

Accurate beam scale, or equivalent, are required.

Rectal thermometers and tube lubricant shall be provided. Each infant shall have an individual rectal thermometer stored in an antiseptic solution.

Freshly laundered blankets and clothing shall be supplied for each new occupant of a crib.

Care of the newborn's eyes shall comply with the State Law.

Part 1 of these regulations shall be complied with insofar as applicable.

V HOMES FOR THE AGED

A. Organization

Homes for the aged shall arrange for a physician to act as general advisor on general health matters pertaining to the institution.

There should be one person who is definitely in charge of the nursing service who shall be a registered nurse or a licensed practical nurse.

A physician shall be available and be called at the onset of any illness.

B. Facilities

In planning new buildings or additions to existing buildings consideration shall be given to eliminating unnecessary differences in floor levels, such as between entrance hall and porch, which might be hazardous to persons who are feeble and uncertain in step.

There shall be a light burning all night in halls and passageways, especially in halls which might be traversed to reach the bathroom.

To assist aged persons in climbing stairs as well as to obviate the danger of falling in descending stairs, there shall be handrails on both sides of the stairways.

Provision should be made for nursing care in the event that a resident becomes ill or incapacitated while in the home. This care may be provided in the resident's own quarters or in an infirmary department which is equipped for sick residents.

Equipment and supplies for first aid must be readily available at all times.

Narcotics, hypnotic drugs, sedative drugs or other restricted drugs, for internal or external human use, may not be owned, stored, or pos-

essed except under the immediate supervision of a licensed physician or licensed registered pharmacist.

Part 1 of these regulations shall be complied with insofar as applicable.

VI NURSING, CHRONIC, CONVALESCENT, REST HOMES, AND HOMES FOR ALCOHOLICS

A. Organization

Every nursing, chronic, convalescent, rest or alcoholic home must have a plan for providing medical care to each patient. In many institutions patients select their own physician. If this is not possible, the person in charge of the institution is to be responsible for a licensed practitioner of medicine providing medical care for each patient as needed.

A physician shall be called at the onset of any physical or mental illness.

A registered nurse shall be employed and made responsible for the nursing care in all institutions.

Any Clinic or Nursing Unit for alcoholics or drug addicts must have a physician or an interne and a registered nurse on duty at all times.

At all times there shall be sufficient personnel in all institutions to provide adequate care for patients and to maintain satisfactory supplementary services needed by the institution. The person in charge of the institution must be reputable and responsible.

B. Procedures

Nursing, chronic, convalescent, rest and alcoholic homes shall have administrative policies on admissions that include specific rulings on:

1. Whether to accept only men or only women or both. If both sexes are admitted, facilities shall be arranged according to need for segregation and privacy.

2. Special attention should be given to the age groups to be admitted. Children under 12 years of age shall not be admitted to institutions caring for adults, unless special segregated facilities are provided.

3. Facilities shall be adapted to the type or types of patients admitted. The following types of patients shall not be admitted:

- a. Patients having or suspected of having communicable disease, including tuberculosis. If a patient develops a communicable disease after admission to a home the patient must be isolated, and arrangements made to have him transferred to another facility.

- b. Carriers or persons suspected of being carriers of communicable disease.

- c. Maternity patients.

- d. Patients requiring surgery other than first aid.

Acutely ill and dying patients shall be admitted to accommodations that separate them from other patient contacts.

Admission of patients must also be regulated by the type of service available and in doing so discretion shall be exercised to avoid admitting patients whose disease and condition indicate the need for a type of

service that is not available in that institution. Decisions on admission shall be based on medical advice.

Sound administrative policies on admission shall be supported by medical diagnoses and provision made for medical care. Patients shall not be admitted until a medical diagnosis or reliable medical opinion is known to the person responsible for patient care in the home.

After the State Board of Health has approved the admission policies and granted a license to a home, no change in these policies shall be made without written approval of the State Board of Health.

No patient shall be locked in his room without special permission from the physician. If for any reason it is necessary to lock a patient in his room the key must remain in the lock, or the door closed by a hook which can be readily unfastened by an attendant in emergency.

Narcotics, hypnotic drugs, sedative drugs or other restricted drugs, for internal or external human use, may not be owned, stored or possessed except under the immediate supervision of a licensed physician or licensed registered pharmacist.

Medications that are not used by patients for whom they were prescribed are to be destroyed.

When the home is a part of a private home or of another institution, separate quarters shall be provided for patients so that the plan for their care and treatment may be adequately set up and supervised.

Patients must not be kept in rooms extending below the ground level.

Beds of household height may be used for aged persons; however, there shall be an adequate number of beds of hospital height, or means of elevating beds, for patients receiving bed nursing care.

In small institutions (six patients or less) side guards on the bed may be used for safety purposes.

Part 1 of these regulations shall be complied with insofar as applicable.

VII CONTAGIOUS DISEASE HOSPITALS

To secure a license as a contagious disease hospital, an institution must be maintained in a separate building, be devoted exclusively to the care of persons who have, or are suspected of having, infectious contagious or communicable disease.

There must, however, be rigid policies enforced by the medical, nursing, and lay staffs providing for proper isolation technique in order to prevent cross-infection between patients.

Part 1 of these regulations shall be complied with insofar as applicable.

VIII ORTHOPEDIC HOSPITAL

To be licensed as an Orthopedic Hospital an institution must be devoted exclusively to the care of orthopedic patients, have on the staff professional personnel especially qualified in the diagnosis and treatment of orthopedic conditions.

Part 1 of these regulations shall be complied with insofar as applicable.

IX PEDIATRIC HOSPITAL

To be licensed as a Pediatric Hospital, an institution must be devoted exclusively to the diagnosis and treatment of pediatric patients, have on the staff personnel especially qualified in the diagnosis and treatment of diseases of children.

Part 1 of these regulations shall be complied with insofar as applicable.

X EYE, EAR, NOSE, THROAT HOSPITAL

To be licensed as an Eye, Ear, Nose, Throat Hospital an institution must be devoted exclusively to the diagnosis and treatment of conditions of the eye, ear, nose and/or throat, have on the staff personnel especially qualified in the diagnosis and treatment of diseases of the eye, ear, nose and/or throat.

Part 1 of these regulations shall be complied with insofar as applicable.

XI. CLINICS

In units providing facilities for diagnosis, medical treatment, minor surgery and/or obstetrics the following is applicable:

Buildings

All beds should be located on the ground floor in so far as possible. All facilities should be well heated, well lighted, and well ventilated.

There shall be facilities for segregation of male and female patients. Ample palatable and nutritious food must be provided.

Staff

A qualified doctor must be in charge with a qualified substitute available for call in case of emergency. In case of limited facilities and equipment, patients whose condition warrant shall be transferred to a hospital where these advantages are available.

Nursing

One or more graduate registered nurses shall be in charge who are either on duty or subject to call at all hours. For ordinary patient care practical nurses may be employed.

Part 1 of these regulations shall be complied with in so far as applicable.

ACT 890 OF 1950 ACTS AND JOINT RESOLUTIONS

An Act To Authorize The State Highway Department To Accept Uncertified Checks In Payment For Vehicle Registration And License Fees, And To Provide A Penalty If Such Check Be Dishonored.

**RULES AND REGULATIONS NO. 15 OF SOUTH CAROLINA
STATE HIGHWAY DEPARTMENT**

(Filed Secretary of State's office June 5, 1950.)

For administration and enforcement purposes of the above Act the following rules and regulations to be used by the South Carolina State Highway Department for these purposes are hereby made and promulgated:

1. The State Highway Department acting through the Chief Highway Commissioner and his agents in the exercise of the discretion granted to him in the Act, will accept the uncertified personal check of any resident applicant-owner of a vehicle for which registration and license plates therefor are applied, as tentative payment for the prescribed license fees charged by the State of South Carolina for the issuance of South Carolina licenses, registration, and plate or plates for motor vehicles, trailers, semi-trailers, pole-trailers, and for registration and plate or plates for resident motor vehicle dealers; provided, however, that the Highway Department reserves the right to refuse any tendered check if the representative of the Department to whom the check is tendered has any doubt as to the validity of the check.

2. Any check tendered for payment under the provisions of Rule 1 above shall be the personal check of the resident applicant-owner made payable to the South Carolina State Highway Department in the exact amount of the correct fee and other charges that are required by law to be paid for the issuance of the license, registration, and plate or plates applied for.

3. The return unpaid, for any reason whatsoever, to the South Carolina State Highway Department of any personal check of a resident applicant-owner, which check was tendered and conditionally accepted as payment for fees due to the Department for registration and license plate or plates, shall of itself operate as a cancellation as of the time of issuance of the license, registration or registrations, and shall be a conclusive presumption that the attempted registration was obtained with a fraudulent or unlawful intent, and that the registration is null and void. Any operation of the vehicle or vehicles involved following such cancellation shall be deemed operation of an unregistered and unlicensed vehicle.

4. Since under the provisions of Section 10 of Act 223 of the Acts of 1949 the license plate or plates, registration card and other evidence of registration remain at all times the property of the State of South Carolina and are issued only for the temporary use of the licensee, the State Highway Department hereby authorizes and directs that members of the South Carolina Highway Patrol as lawful officers and agents of the State Highway Department shall take up, take charge of, and repossess for the State Highway Department, without any further legal proceedings, such of its property (consisting of license plate or plates, registration card or cards and other evidence of the attempted registration of any vehicle or vehicles procured by means of any personal check which has been returned to the South Carolina Highway Department unpaid) as may be found without the necessity of a search warrant. Should such a search warrant become necessary, the patrol officers will proceed to the proper judicial officer and secure such a warrant to complete the assignment incident to this operation.

5. The plate or plates, registration card and other documentary evidence of the attempted registration having become cancelled, useless, null and void, they are hereby declared to be and will be considered contraband, and are, therefore, subject to seizure by any patrolman or patrol officer of

the State Highway Patrol without further notice or legal process. The property seized shall be returned to the State Highway Department for its use in the correction of its record and for subsequent destruction.

6. The patrol officer or officers shall collect for the State Highway Department from the applicant-owner the sum of Ten (\$10.00) Dollars to cover the costs of repossession or attempted repossession of each plate or set of plates of the same number and related registration card or other evidence of registration.

7. Payment in full of the Ten (\$10.00) Dollars charge above provided for shall be a condition precedent to registration or further operation by any person, firm, or corporation of the vehicle involved upon the highways of this State.

8. The State Highway Department will furnish an official receipt upon payment of the Ten (\$10.00) Dollars charge; and upon presentation of this receipt together with a new application for registration, and payment of the required fees therefor by any proper means other than that of personal uncertified check, the said vehicle may thereafter be legally registered and operated.

9. Nothing in these rules and regulations shall be construed as adding to or in any way repealing in any manner whatsoever any other laws of the State having to do with traffic, motor vehicle registration, bad checks or otherwise.

10. These rules and regulations shall take effect on the 5th day of June, 1950.
